

Save up to 60% off your monthly energy bills with Energy Ogre just like several Pin Oak Middle School families and give back to the school at the same time! POMS parents Barry & Linette Courtney and Cara Michael are just a few of our happy members. The Courtney family has saved over \$2,300 a year!

Linette Courtney says, “Signing up with Energy Ogre was super simple and to pay a membership fee of \$10/month to save over \$2,300 was a no-brainer for us!”

Everyone uses electricity differently, so there is not a “one-size-fits-all” plan. Our high-tech systems analyze thousands of electricity plans to find you the best effective rate based on your specific historical usage. Then, we manage the complete electricity contract buying experience, even through your renewal periods. Our members’ average savings are 40-60% with a satisfaction guaranteed policy.

Energy Ogre is “ogre”-joyed to help POMS families put some of their hard-earned money back in their pockets. Plus, Energy Ogre will donate a portion of your membership fee back to the school year-after-year.

Go to Energy Ogre's [free savings calculator](#) to get an estimate of how much you could save.

Then, [sign up](#) to become an Energy Ogre member with promo code POMS. The entire process takes less than 10 minutes!

Energy Ogre, our technology, your savings.
